Occupational Health & Safety Policy

Air Control Australia recognises that it is our company management's responsibility for the health and safety of all our employees. Air Control Australia Pty Ltd is strongly committed to standing by all OH&S policies and practices, this will ensure the safe working environment of our employees, clients and surrounding community, whilst maintaining a manageable healthy and risk free work place. In demonstration of this commitment, and as part of our continuous improvement process Air Control Australia aim to:

Objectives

- Provide and maintain safe plant, systems of work and entry and exit from the workplace.
- Provide appropriate and adequate accident prevention measures and reporting procedures.
- Provide appropriate and adequate occupational health and safety training and educational programs.
- Provide written procedures and instructions to ensure safe systems of work.
- Make and monitor arrangements for the safe use, handling, storage and transport of plant and substances.
- Ensure compliance with legislative requirements and current industry standards.
- Maintain the workplace in a safe and healthy condition.
- Endeavor for continuous improvement in accident prevention performance.
- Provide adequate facilities to protect the welfare of all employees.
- Provide employees, contractors and customers with regular information, instruction, training and supervision to ensure their safety.
- Maintain information and records relating to employees health and safety.
- Review all OH&S policies on a regular basis.

Management seeks the cooperation from all employees in realising our health and safety objectives and a safer and healthier work environment. All parties will be advised of agreed changes and the arrangement for their implementation.
